InterEasts Quality Policy

Our company's sole purpose is to challenge preconceptions through innovation and sustainability. The goal of InterEast Transport is to always cater to the needs of our stakeholders, in line with our core values and standards. We believe in a future where more efficient and sustainable transport ties us together – no matter where you are on the planet. We are the supply chain revolution that offers high precision services with a personal touch.

To achieve this, we shall:

- Create a digital platform to achieve a swift and efficient chain of logistics
- Present the clients with new sustainable alternatives
- Inform and educate clients on their transports environmental footprint
- To establish and nurture trusting relationships with suppliers
- Exchange information with clients and suppliers with the utmost precision and accuracy
- Obtain, develop and update needed skill sets
- Work with good business ethics

To improve continuously, we shall:

- Follow up with customer orders
- Be perceptive to stakeholders' wishes and requirements
- Continuously update quality goals
- Keep ourselves updated and informed about the standards of ISO 9001:2015
- Establish employee-specific personal development plans
- Work with continuous improvements to our quality management system and our service
